MUHAMMAD HARIS

React Native Developer

Phone No: +92 3130437889 **Email:** mharis7y@gmail.com **LinkedIn:** linkedin.com/in/mharis7y **Location:** Peshawar

SUMMARY

React Native developer with hands-on experience from a mobile app internship and two independently built apps. Comfortable across the mobile stack: Expo, Firebase, REST API integration, and state management with Zustand and Context API. Looking for an entry-level mobile developer role where I can keep building on that foundation.

EXPERIENCE

Android Development Intern

07/2026 - 08/2026

ZENVYRO LABS (Pvt) Ltd.

- Delivered reusable, responsive UI components across several app screens, standardizing shared design patterns in React Native to improve visual and functional consistency.
- Set up secure, persistent user sessions and real-time data sync by integrating Firebase Authentication (token-based) with Cloud Firestore.
- Kept a clean, version-controlled codebase using Git, and took part in code reviews and sprint planning with the development team.

PROJECTS

HushTalk - Image & Video Steganography App

10/2025 - 06/2026

- Built an Android app end to end, from architecture to release, using React Native, Expo, and Appwrite for backend storage and REST API integration.
- Implemented LSB-based steganographic encoding and decoding to hide and extract text within image and video files without a visible drop in media quality.
- Handled secure data storage and performance tuning so processing stayed reliable across different file sizes and formats.

Tools: React Native, Expo, JavaScript, Appwrite, Git

StreamPulse - Live Streaming Platform

01/2025 - 06/2025

- Co-developed a live streaming platform with a team of three, adding real-time sentiment analysis on viewer comments as a premium NLP-powered feature.
- Built the mobile frontend in React Native and Expo, integrating real-time video and chat through the GetStream SDK.
- Managed app state with Context API and styled the interface with NativeWind.

Tools: React Native, Expo, TypeScript, NativeWind, Context API, GetStream SDK, Git

EDUCATION

BS Computer Science

City University of Science and Information Technology, Peshawar

11/2022 - 06/2026

CERTIFICATIONS

- Meta: React Native Specialization
- Principles of UI/UX Design
- Data Science Essentials with Python

SKILLS

Mobile: React Native · Expo · Expo Router · NativeWind / Tailwind CSS

Languages: JavaScript · TypeScript · Python

Backend & Cloud: Firebase Auth · Cloud Firestore · Appwrite Storage · RESTful APIs

State & Storage: Zustand · Context API · AsyncStorage

Tools: Git · GitHub · Postman

LANGUAGES

Urdu (Native) **English** (Advanced) **Pashto** (Intermediate)
